On 29th also we are closing the school for the children as the school has to be cleaned for the report day. The teachers have given enough instructions to our children regarding the report day, holidays and also how we are going to wind up the whole school on Friday for the summer. It has been clearly told that they can't work with the Montessori materials on that day.

The school has planned to give very high quality snacks to the children on the last working day. Dr.Madeswaran has bought SreeKrishna Sweets from Dindukal. This is one of the most famous sweet brands in the state.

We feel happy to gift long bead chains to all our girl infants and children. This is a gesture of sharing our happiness and thanking mind with them for making us to learn many things from them.

LAST WORKING DAY FOR THE CHILDREN

Today children have gone out for their last NATURE WALK as a whole group with Ms.Sasikala and Miss.Mallika accompanied by Ms.Mahesh and Ms.Amudha. The school gave enough work to few children who said that they cannot walk.

The school is still planning the best to run at least half day in May as everyone felt that the parents are in need of school. But the main issue is that the staff members have to prepare for the exams. We are planning whether teachers can work till 12 noon. Today we have to have a detail meeting with them and we too need to ask the parents about it.
