

#### **EVENTS OF JUNE 2012**

For May month we have not written because of summer holidays.

The school got reopened on June 1st for the teachers and 4 th for children. Most of our children who are around 3.5 years have left the school for nursery education. As usual without canvassing we are getting admission from 1 year age. The transport charges are challenging us now along with the house rent. Mr.Jeyaraman has visited and conducted first meeting in Sendurai. He has also arranged for other transport service who can offer lesser than what others ask.

Teachers and helpers said that new children have settled well and the work has really started. We are not using the upper portion of the house just because of safety.

Dr.Madeswaran will be able to visit the school only by the last week of July as the work pattern is very tight. The total confidence of the trust upon the 7 adults in Sendurai who are handling the situation is the reality.

We wait for the steps which have to be taken by Dr.Mani and his family regarding the construction of school building. The fund, new land and many other issues are in focus before the founders.

Sendurai teachers [Mrs.Kalaivani and Miss.Mallika] will be staying in Coibatore for July 14th till 21st to train the teachers. All required arrangements have been made.

Teachers are also writing the state government teachers qualification exams in July.

Let us beginning the New Year with same spirit and mind to serve very young children for their successful future. [photo – our staff and children during a nature walk]
