

## EVENTS OF AUGUST, SEPTEMBER AND OCTOBER -2012

In August we celebrated our nation's independence day. This time we have made **Mr.Sakthivel** to hoist the national flag. He has been involved in our trust activities with selfless attitude and he was also willing to give his home for the school. We thank people like him in this occasion. In emergency time, he has given financial support also. His wife is **Mrs.Shanthi** working in our center.

Narrative reports have been written and started getting edited by Dr.Madeswaran. The qualities of the reports are good. The

reports are based on Uni5 pattern of observation.

On September we gave away the reports and closed the school for first term holidays.

After school got reopened children did not cry. They came to school with happy face. They have not forgotten the ground rules of the materials.

The inner order of the children is very much evolved. There is an obvious change in the attitude of the children.

Older children are directing the younger and new children.

**1.25 years old Nevaydhini** is following all the ground rules very well and exercising with Montessori equipment. She arranges her slipper very well.

### **Change in lunch pattern**

There is calmness in our lunch pattern. Children have learned to settle in a pattern after hand washing for lunch. We also feel easy to handle the lunch timing. They are independent in handling their lunch. So adults are able to observe their lunch behavior.

No child is seemed to be free. Everyone is involved in exercising with a material.

Our children are also well behaving in auto and they do not shout when it comes.

We have 4 new admissions for Vijayadasami – October 24<sup>th</sup>. As usual adults and elder children settled them.

### **More sense of order**

One day we forgot to hoist the flag. Our children came and spoke about it and made us to hoist the flag.

**Nature walk** is being enjoyed a lot. More involvement and communication has been experienced among the children. They observe and link the nature with them.

**Navarathry festival** was celebrated very well. New children were very much excited to see lot of

dolls and the arrangement. Some of them saw Rama-Guha doll and spoke about it with their own stories. They understood that Rama and Guha were friends. Children also enquire about Dr.Madeswaran's absence.

Miss.Mallika's absence has made strong impact upon children.

**Panchabootha, body and mind concepts** have been introduced.

One of child introduced **Jothy akka** with more respect to his neighbors. Animals and birds were introduced with their social responsibility behaviors.

More importance is given to social skills and life education.

**Abdhulla told his parents that if they beat him, he will inform to the school.**

Many students who have left us are still remembering us. They used to wish our staff.

Hindhi words are being used regularly by Kalaivani David.

We are working towards Deepawali. Concept of water and food will be presented to children.

Laxmi, Ganga and Annapoorna pooja will be performed on November 9<sup>th</sup>. Deepawali leave will be from November 10<sup>th</sup> – 14<sup>th</sup>.

Dr.Madeswaran has to visit them soon. That is their need.

Rs.500 is being given as Deepawali dakshinai to all adults of Sendurai school.
