

Ms.Priya Challiyill from USA made her visit to Pungeri village -

Kanchipuram Dt to observe Namma Oru Infancy Uni5 center on 8.8.2014. She was also accompanied by Mr. Pradheep-Krishnan from Dubai and Dr. M. Madeswaran. She observed the working pattern of rural children and various other activities. She joined with Uni5 presentation and gave few tips to make it interesting. She has crisp meeting with all staff members.

Mr. Suguma has arranged the trip from Madras city. Miss. Ranjitha came to the center and worked with children. Uni5 concept of clouds gives rain has been introduced to the children by Ms. Mageswarai along with Ms. Revathy and Ms. Ranjani.

She says, "it is very glad to see how the staff members have made the children to work well with total focus within 2 months. But staff need to coordinate, plan and take further. Even in USA schools does not provide this much of varieties of tools. Staff must be very enthusiastic and expressive before children. Mingle with the children with spirit. Do not behave like traditional teachers in any context. "

Mr. Pradheep-krishnan says, "I was just reading and listening from web about all these school activities. But today I am enjoying the real show. It is quiet interesting to see very young children working with various tools. Their focusing power is very high."
