For Tender Hearts*

Taking Montessori to the masses.

Sri Sakthi Montessori School is revolutionizing the quality of Education in economically challenged Village Sendurai, at a very low cost. Sakthi School also offer a high quality Montessori training to rural women, and offer them employment at the school.

Highlight of the School

1. Montessori materials help to students to comprehend abstract concepts. In children, it also arouse the curiosity to learn naturally.
2. Children develop discipline with freedom and responsibility.
3. Develop integrated & holistic knowledge by bringing out their own creative intelligence.
4. Learn social interactions & communication skills with traditional and cultural values.

52 km from Madurai
18 kms from Tovarankuruchi

We are with you in every step of the way

Along with education, Namma Veedu emphasizes the spiritual (not religious) growth of the children. Spiritual means inner transformation, embracing all beings as the expression of one's own "Self".

Friendly, Knowledgeable Teachers

Teachers and assistants at Sakthi School use unconditional love to nurture the children's growth and learning process. This not only has tamed the initial wild behavior of some children but also amplified the good qualities like patience, emotional-intelligence in adults.

The ratio of teachers and helpers at our school is 1:5, a significantly high number to give maximum care and attention to the children.

Teachers feel that they are relieved of their personal stress, while working at the school.

"I admire the inner order developed by our one and half year old Twin boys, attending this school."

- Parent of Chandra and Surya Raj.

Your Help Makes Sakthi School a Reality

The emphasis on "Personal transformation" is based on Dr. Montessori philosophy and Sakthi Foundation's ideals. Sakthi foundation focuses on the growth of the Body, Mind, Intelligence, Awareness and transcendence to Consciousness.

Looking For a best Home-school for your child

Happiness is the ultimate goal in life. Knowledge is one of the key factors for the achievement of happiness. The high class educational system like the Montessori method that was initially started for poor, physically and mentally challenged children, is no longer affordable by them. Therefore, Sri Sakthi Foundation started Namma Veedu Montessori Sri Sakthi school in the village of Sendurai (Dindugal Dist, Tamil Nadu) to educate poor children (below 6 years old). It gives a strong emotional, intellectual and Spiritual foundation at the very young age. With this strong foundation, they can excel in higher studies.

We also give high importance to physically and mentally challenged children and help them grow like other children. Due to financial difficulties of many parents, we collect only 10% of our expenses as fees. Remaining 90% are from donations and funds raised through Sri Sakthi Foundation. The children not only get exposed to various subjects, but also learn tradition and culture of many countries. They also develop communication skills in local language as well as in English. Through unconditional love & freedom shown by the teachers, children learn good manners without any corporal punishments.

Find this right school for your child

Freedom and self independence is the spirit of every being. The mission of our school is to help every child to attain Self-Independence through the Montessori education. Dr.Maria Montessori has emphasized that, finding "Spiritual independence is the true goal of education". Therefore, we chose Montessori system of education to help the children to attain spiritual and self independence, the highest state that everyone should attain to find inner peace.
