NAMMA VEEDU INFANCY CENTER
Montessori integrated Uni5 system
Theethipalayam, Coimbatore - 641010

Dear Madam,

We are very happy to observe your development and dedicated work in our infancy center. We appreciate your natural love and care for children which have made them to settle very soon. We are also happy to see our children getting exposed to a good Hindhi language through you. This is a very important skill in a Montessori environment. We have observed that you are confident and able to grasp the essence of Montessori integrated Uni5 teaching system. We are also able to see the reflection of that in your work. We appreciate your creativity and imagination. Your art and craft work has been recognized by most of us and parents. We also thank you for taking many responsibilities like fees collection etc.

Your skill of observation is evolving slowly and it plays a major role in the development of the center. Children are very happy and lovable with you which is your great success. We wish you to talk mostly in Hindhi and make the children to imbibe the pattern of language.

Thanking you!

Yours faithfully
