

NAMMA VEEDU INFANCY CENTER - COIMBATORE

Mrs.Priya challiyil's observation minutes with the parents and teachers of the center.

Date: July 14th

Mrs.Priya from USA made her warm visit to the new center. She observed the infancy Montessori - Uni5 session for 2 hours and later had a meeting with all 17 parents of the center.The minutes are as follows:

1. Public of Theethipalayam locality thanked the foundation for establishing the center.
2. Parents are aware about the difference between day care baby canthers and Montessori environment.
3. Parents said that their children are different from their own siblings and other children near by in the following features.
4. Children's spoken skills in mother tongue, Hindhi and English are obvious.
- 5.They are independent and being on their own.
6. The freedom of choice has cultivated responsibility and inner order naturally within them.
7. They are assisting the parents at home in all work.
8. They are more binding to the love and care of their teachers.
9. Their hands are always seeking to do some work.
10. They demand the adults to involve them in all possible activities.
- 11.Parents said that the school is like a family,easy to approach, friendly and responsible.
- 12.Children are evolving in their social skills.
- 13.Children's anger, stress, unhealthy emotions have calmed down.
14. The natural love, adjustment, sharing nature and respect for all are obvious.
15. Importance of language skills has been well understood by the parents.
- 16.Children feel free and happy to come to the center and they are preparing daily them self without stressing the adults.
- 17.Children are exposed to good culture and tradition.
18. Prayer, chanting shlokas, Brain yoga has become part of their life even at home.
- 19.Smart dressing, make up, following Indian traditions are getting imbibed by the children.
- 20.Children demand their parents to assist in exploring more within the living environment.
- 21.Children are expressing a systematic pattern of work.
- 22.Children are punctual.

finally they said .,

"MY CHILD IS ON HIS OWN, THE CENTER HAS ALLOWED HIM TO LIVE NATURALLY ON HIS OWN BASED ON HIS AGE AND NEEDS"

Mrs.Priya said,

"the progress which has been achieved in 2 months is great. Children must be allowed to be on their own which alone gives them natural order and responsibility. Children must be exposed to social skills and social responsibility"

Parents also requested how far the center will develop its further grades, which has to be answered by all of us.

The observation made by Priya will be helping her to evolve more in her pattern of working and implementing new educational ideas into our schools.
