Uni5 selftual math material

5. They worked from morning 9 to evening 3.30 P.M. Their time management was good.
6. They welcomed every child with warm wishes and settled them. They participated in all activities which were presented to the children by us.
7. They tried to settle new children with materials and also gave good observation points about each child.
8. They took notes and asked us to present every activity which has been taught in their course.
9. They also assisted us in making preparations for next presentations.
10. They discussed about plans, syllabus making and various other official work.
11. They enjoyed the nature walking activity and implemented the Uni5 concept in knowing the concepts. They said that they like the Uni5 pattern system which is very easy for the children to know the concepts.
12. They came to the level of the children and worked. They were able to give a valid report study which is unique than us in some aspects.
13. After school time they sat for regular meetings and discussed their doubts.

14. Children mingled with them very easily and they were so happy to be with them. This reflects their mental attitude in handling the children.

15. They were very particular in observing the Montessori - Uni5 philosophy within each child.

Examples: 8 months old infant Kriba's working pattern.

1.25 year old Krithik Roshan's spirit in coming to the center. His parents are very happy about the system.

1.75 year old Priya's level of consciousness in maintaining the inner order attracted every one. When helpers were cleaning the hall, she just dropped all the wastes inside dustbin.

16. Candidates said that they were so happy to see the theory which they studied in reality.

17. They felt that transformations can be made within human child through this system.
